## THE HICKMAN COURIER.

HICKMAN, KY.

FRIDAY, 1:1:1 JAN. 10, 1880.

### FOR CLERK COURT OF APPEALS

We are authorized to announce Mr. JAS. R. MARTIN, of Barren county, as a candidate for Clerk of Court of Appeals, and his name to the status of the Democratic party.

We are authorized to announce THOMAS G. FORD, of Hickman county, as a candidate for Clerk of Court of Appeals, subject to the action of the Democratic State Convention.

### To Our Friends

In view of contemplated changes in the business management of the COURIER, all persons indebted to us for subscription, advertising or job printing, are respectfully requested to make settlement of the same by the first of March, as it is imperative that outstanding balances must be closed before we can take up our new work. Any holder of claims against the COURIER will present them for payment.

The 110 counties in the State, 26 miles from the treasury more money than they pay into the State.

See also Cleveland and Job for the only man in the United States who really respects Senator Jo Blackburn's re-election.

Tan election for U. S. Senator, Public Printer &c., being now disposed of, the Kentucky legislature can get square down to work.

The veteran Congressman, Judge Kelley, is said to be dangerously ill with cancer. He was born in 1816 and has been a member of the House for over twenty-eight years.

Tag Ballard county Wheel nominated their ticket for the election next August. It stands as follows: Samuel Sharpe, county Judge; B. F. Price, county attorney; A. C. Parker, County Commissioner; W. H. Garton, sheriff; G. W. Willis, Superintendent of schools; James McRae, jailer; W. H. Overton, coroner; and W. H. Wickford, surveyor.

The ex-Federal soldiers residing in Kentucky have organized a council of ex-A. R. P. Posts. The same men maligned Capt. Gray, Department of War, and the other posts. Its participation in the funeral of Jefferson Davis, and the Captain has caught even with the patriots to the south. The black blacks, who have organized a division of Gen. A. R. P. Posts.

Says the Courier Journal: Capt. H. L. Burritt, of New Orleans, Adjutant General of the grand Army of the Republic, has written to the Department of War, asking that it would be necessary for him to sign the charter of the colored post recently admitted by General Grant. He adds that he has had a talk with Gen. Blunt, with a cohort or two of those Northern champions of the negro were putting down the rebellion, and that he would like to see the blacks in the ranks of the Republicans G. A. R. P.!

The Democratic legislative caucus at Frankfort was large and harmonious. Judge Landry nominated Senator Blackburn for re-election, and the resolution was unanimously approved, after which Mr. Blackford acknowledged the adoption of the resolution. Paul D. Brink, Col. G. W. Johnson, the present lieutenant, who had no opposition, was chosen without a dissenting vote. Thus we find the negroes are to be found in the public services, may future Legislatures have no little trouble in finding us good.

An exchange recently comes up in the following a needed article for the extraction of gold from the earth. It is proposed to change sufficiently to allow the United States officers to go over Kentucky and bring all fugitives when he has his pockets bulging out with about \$600,000 of greenbacks. Extractive treaties should have a stipulation that they shall not be used. It ought not to be a matter of moment whether the stolen money was from somebody's pocket or a drawer, burglar-proof safe, &c.

Senator Isbell has declared himself in favor of a law exempting the children of Union veterans from examinations under the civil service law as a means of assuring that the party in power can't oust one and keep hold of it to take, as we might as well take it if we are to keep the party in power. This is all the reason there is to sustain all descendants of Union veterans from the necessity of earning a living. The Repub. party is determined to sustain an honest, upright class of some sort in this country, and we should be glad to have the party show its full hand before 1882.

PHILADELPHIA Record: "Nothing has occurred in this country for many years to equal the utterances of the Re-public press as its failure to rebuke the recently scheme developed by the Southern Confederacy of that State over to the voluntary by throwing out men who were elected as Democrats. There is no doubt that such an attempt to defeat such a election. The game plan of the Southern Confederacy is to elect a dictator in the winning that will be more costly in the end than a hundred Republican defeats."

### Electing the Delegates.

The suggestion made in the COURIER of Dec. 29th, looking to an early primary election to elect a delegate to represent Hickman and Fulton counties in the Constitutional Convention, probably to assemble in October next, has met the approval of a number of citizens, but the Democratic committee, we are doubt, waiting further advice, and to acquaint them with the result of the election. The COURIER believes that an early primary will meet with some objections, and that faults will develop, but possibly not so many and of less serious nature than pertains to the heretofore custom of deferring organization methods until immediately before an election, and personalitie's are of fever heat. Far many a large number have favored early primaries, and we want to see it tried.

### Buckner Law.

A revision of the road laws of this State receives a great impetus in the suggestions of Gov. Buckner. Former Governor Buckner has given over this great need in peace, and office-hunting politicians have fought shy of commitment, but Governor Buckner has submitted to an interview, so that the people and news papers of the United States may know what the road laws are.

Gov. Buckner has submitted to an interview, so that the people and news papers of the United States may know what the road laws are.

Mr. Well, the member of the Legislature from McCracken county, is coming to the front as a practical reformer, and in a manner that will be practically appreciated by the people. He has introduced a bill to reduce the State tax from 47 cents to 38 cents. His position is well taken, in view of the fact that the Auditor's report will be at the end of the present fiscal year, June 30, 1880, a balance in the treasury or surplus, of \$32,244.75. If, therefore, our present revenue laws produce the large amount annually more than is necessary for all the expenses of administering the State government, it is conceded, why then it certainly should follow, that the use of taxation is a wise method of getting money in the State treasury, or in the Federal treasury, begets extravagance and corruption, and just as certain as Mr. Well's bill falls of passage just that certain will the State be launched into some expenditure to eat up that surplus.

### Cleveland and Dan.

In reference to numerous publications made from time to time in the New York Sun, relating to alleged movements, actions, sayings or doings of ex-President Cleveland, that distinguished gentleman has submitted to an interview, so that the people and news papers of the United States may know what the road laws are.

"There is absolutely no truth in the report. I had no word of it until last Saturday. Now, I want to say to you, for the sake of the nation, that it is useless for you to come up with any public, for there will be no truth in them. In all probability, of course, the story is true, but it is not true in the sense of what it purports to be."

Mr. Well, the member of the Legislature from McCracken county, is coming to the front as a practical reformer, and in a manner that will be practically appreciated by the people and news papers of the United States may know what the road laws are.

The decline in prices of all commodities from January 1 to January 1, 1880, was about 4 per cent., and the price of cotton was down 10 per cent. than in any previous January for thirty years. The average for 1879 was 82¢ per cent. below that of 1888. That the average price of farm products in the United States should be lower than my January for 30 years appears to be a fact, and the cause that produced such a result is easily intelligible. The demand for subsistence, the demands of civilization, and the needs of commercial intercourse alike demand a revision of the road laws of the State.

### Lowest for 30 Years.

G. R. Dunn & Co's REVIEW, discussing the general business situation and prospects says:

The decline in prices of all commodities from January 1 to January 1, 1880, was about 4 per cent., and the price of cotton was down 10 per cent. than in any previous January for thirty years.
